PROFESSIONAL SUMMARY

Fresh graduate Backend .NET Developer from EELU (Class of 2026, GPA 3.3/4) with hands-on experience building scalable APIs, ERP-style systems, and AI-integrated platforms. Designed and deployed **Sales Vision** — a full-stack, production-deployed platform combining ASP.NET Core, ML-powered forecasting, interactive dashboards, and role-based access control. Actively seeking backend opportunities in Saudi Arabia with immediate relocation availability.

EDUCATION

Bachelor of Information Technology

Egyptian E-Learning University (EELU)

2022 – 2026

GPA: 3.3 / 4.0

TECHNICAL SKILLS

Core Backend	ASP.NET Core • C# • REST API • Entity Framework Core • LINQ • JWT Authentication
Database	SQL Server • Stored Procedures • Query Optimization • EF Core Migrations
Architecture	SOLID Principles • Design Patterns • OOP • Clean Architecture • Repository Pattern
Tools & DevOps	Git / GitHub • Postman • Swagger / OpenAPI • Visual Studio • VS Code
Frontend (Basic)	Angular • HTML / CSS • JavaScript • Tailwind CSS • Bootstrap
CS & AI	Data Structures • Algorithms • Machine Learning • AI Integration • Prompt Engineering

FEATURED PROJECT

Sales Vision — Graduation Project 2026

AI-Powered Sales Management & Analytics Platform for SMBs

🌐 sales-vision-dashboard.vercel.app
🔗 salesvisionwebsite.runasp.net

Key Features:

- Centralized ERP platform managing sales, inventory, customers, suppliers & employees
- ML-powered monthly sales forecasting with seasonal trend analysis
- Interactive analytics dashboards with real-time visual data
- Role-based access control (RBAC) + JWT authentication + full audit logging
- RESTful API backend with Swagger / OpenAPI documentation
- Deployed frontend on Vercel + backend on RunASP (2 live production endpoints)

Tech Stack:

ASP.NET Core • C# • Entity Framework Core • SQL Server • REST API • JWT • Swagger • Angular • Tailwind CSS • Machine Learning • Vercel • RunASP

KEY ACHIEVEMENTS

- Designed and deployed a full-stack, production-ready platform combining ERP, ML, and analytics as a solo graduation project
- Achieved GPA of 3.3/4.0 at EELU while building a live, commercially-relevant web application
- Integrated a machine learning forecasting module into a real ASP.NET Core web application
- Maintained 2 live deployment endpoints (Vercel + RunASP) for front-end and back-end services simultaneously
- Self-studied Clean Architecture, SOLID principles, and design patterns beyond the university curriculum

LANGUAGES & AVAILABILITY

Languages

Arabic: Native
English: Professional working proficiency

Relocation & Availability

Target Market: Saudi Arabia (KSA)
Status: Ready to relocate immediately after graduation • Visa sponsorship required
